```

It's happened occasionally, but it's not very traditional. Usually when people do a palace coup replacement, the tumbrels are waiting outside to cart the old dictator off to their sticky end. You can't afford to leave them around, you see: they can pop up later and spoil the new republic inordinately.

So, I think if we're running a sanctioned palace coup, we really need you around to anoint the successor(s).

James
